# Make a smart investment in energy efficiency with cash rebates from IPL.

When you think about it, investing in energy-efficiency for your business is a no-brainer. You save energy, which in turn saves you money every month on your utility bill. Plus, you're doing your part to help conserve precious natural resources.

Some upgrades like clock-programmable thermostats cost as little as \$50. Other upgrades cost more. But one thing is for sure – when you consider the monthly energy savings and the cash rebates from IPL, choosing energy efficiency is just plain smart. Some cash rebates include:

- Ceiling fans **\$20**
- Central air conditioning up to **\$225**
- Lighting up to **\$60** per fixture
- Compact fluorescent light bulbs **50%** of purchase price
- Insulation up to **\$10,000**
- Natural gas boilers up to **\$400**
- Natural gas furnaces up to **\$350**
- Occupancy sensors **\$15**
- Refrigerators and freezers **\$50**
- Replacement windows/sashes and doors **\$25** per window/sash or door
- Vending machine controllers **\$75**
- Water heaters **\$50**
- And more

Curious about which upgrades can save your business the most? Call the Business Resource Center at **1-866-ALLIANT (1-866-255-4268)** or visit [alliantenergy.com/rebates](http://alliantenergy.com/rebates).
