Subject: Residential New Construction

Data Request No. 47

How are new residential multifamily buildings serviced in this program?

Response

Low-rise multifamily facilities are eligible for participation in the New Home Construction program via the ENERGY STAR[®] label. Multifamily buildings (three stories or less), qualify to earn the ENERGY STAR label. Upon verification by a RESNET accredited professional via the Home Energy Rating system, the builder becomes eligible for a per-square-foot incentive.
