Re: Plant Number 78-01-026, Project Number 06-541, Response to Public Comments.

Dear Ms La Seur:

This letter is to inform you that the Department has completed its review of the public comments from the public comment period. Since the proposed project has the ability to meet all state and federal air quality standards and no adverse comments were received the Prevention of Significant Deterioration (PSD) permits have been issued. Attached to this letter is a copy of all comments received by the Department and the Department's responses.

A copy of these "Response to Comments" and the final permits will be at the Council Bluffs Public Library until June 29, 2007. All of the records will permanently be available for public viewing in the Air Quality Bureau's Record Center.

For more information on the Air Quality program and electronic copies of the permits please visit our website at www.iowacleanair.com. If you have any questions please feel free to call me at (515) 242-6002 or email me at chris.roling@dnr.state.ia.us.

Sincerely,

A handwritten signature in cursive script that reads "Christopher A. Roling".

Christopher A. Roling, PE
Environmental Engineer Senior
Air Quality Bureau, IDNR
